

Amendments to the Claims:

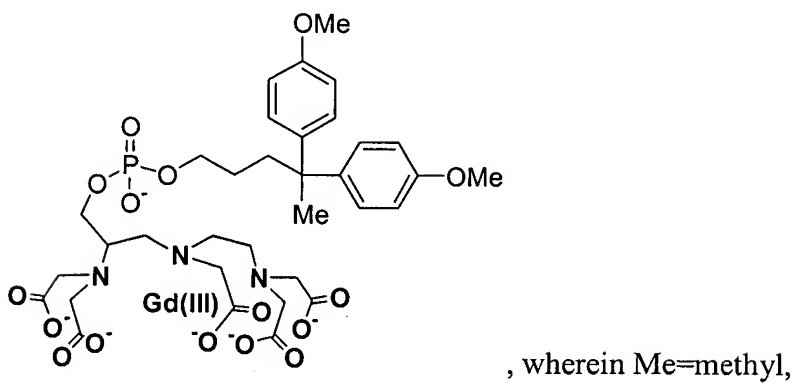

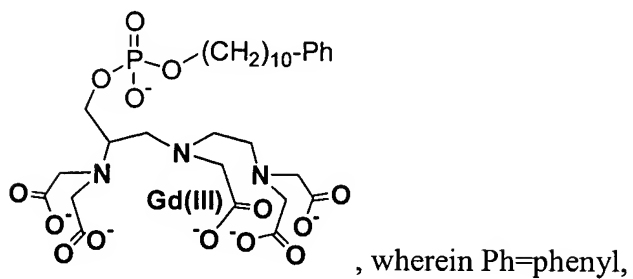

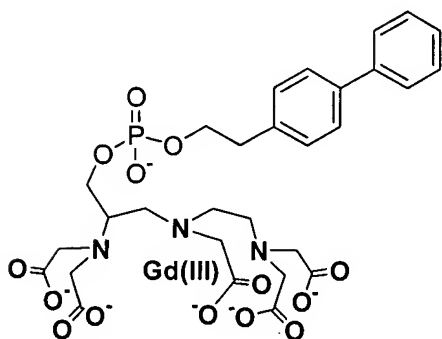

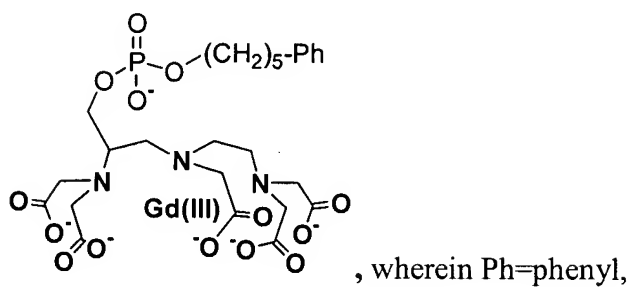

This listing of claims replaces all prior versions and listings of claims in the application:

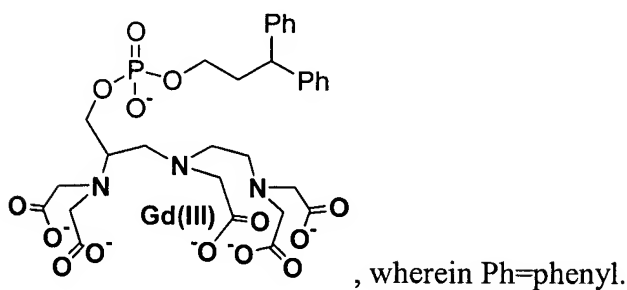

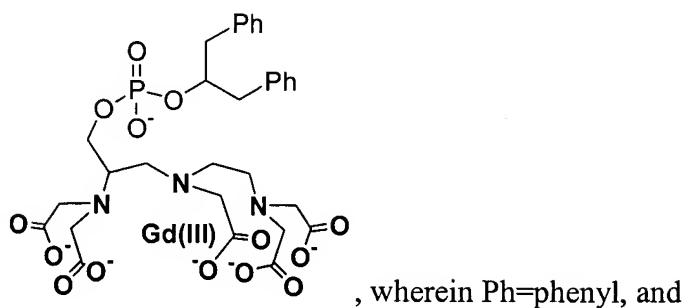

Listing of Claims:

1. – 102. (cancelled).

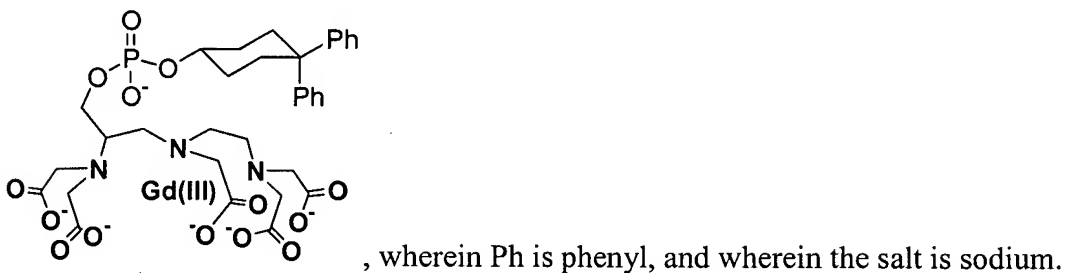

103. (previously presented) A pharmaceutically acceptable salt of a diagnostic imaging contrast agent having a structure selected from the group consisting of:

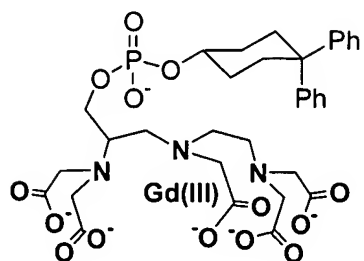

104. (previously presented) The pharmaceutically acceptable salt of claim 103, wherein the salt is selected from the group consisting of calcium, sodium, N-methyl-glucamine, and mixtures thereof.
105. (previously presented) The pharmaceutically acceptable salt of claim 103, wherein the diagnostic imaging contrast agent has the structure:

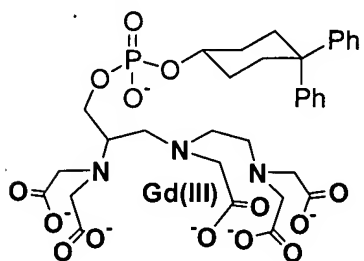

106. (previously presented) The pharmaceutically acceptable salt of claim 103, wherein the diagnostic imaging contrast agent has the structure:

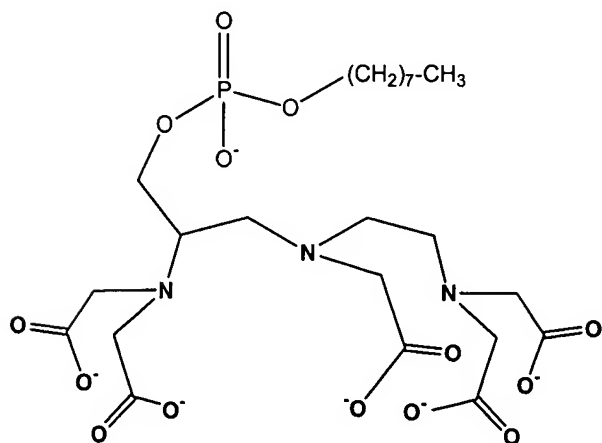

, wherein Ph is phenyl, and wherein the salt is N-methyl-glucamine.

107. (previously presented) The pharmaceutically acceptable salt of claim 103, wherein the diagnostic imaging contrast agent has the structure:

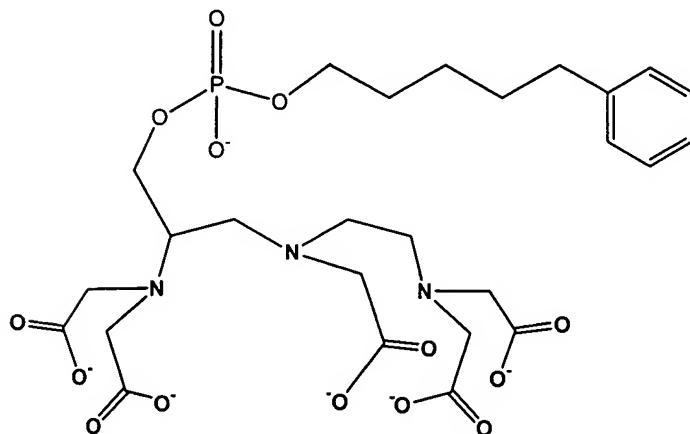

, wherein Ph is phenyl, and wherein the salt is a mixture of sodium and N-methyl-glucamine.

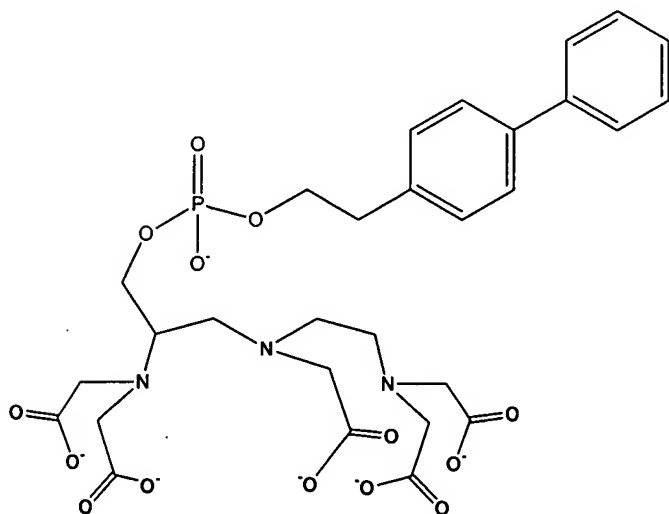

108. (previously presented) A chelating ligand having the structure:

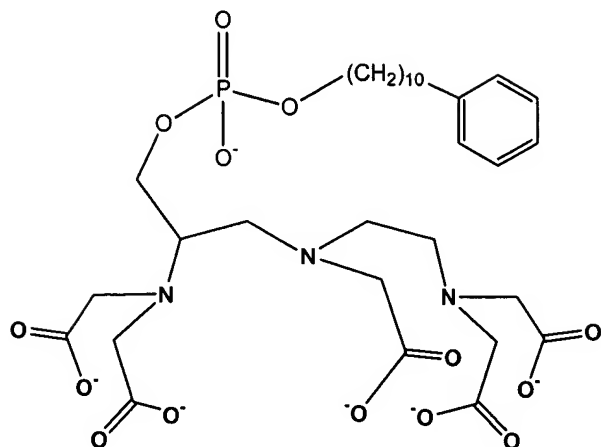

109. (previously presented) A chelating ligand having the structure:

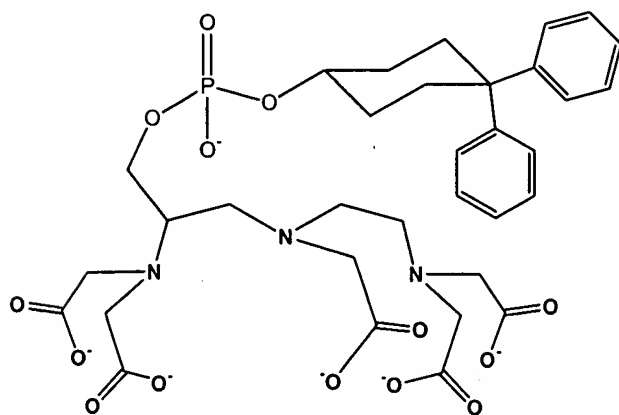

110. (previously presented) A chelating ligand having the structure:

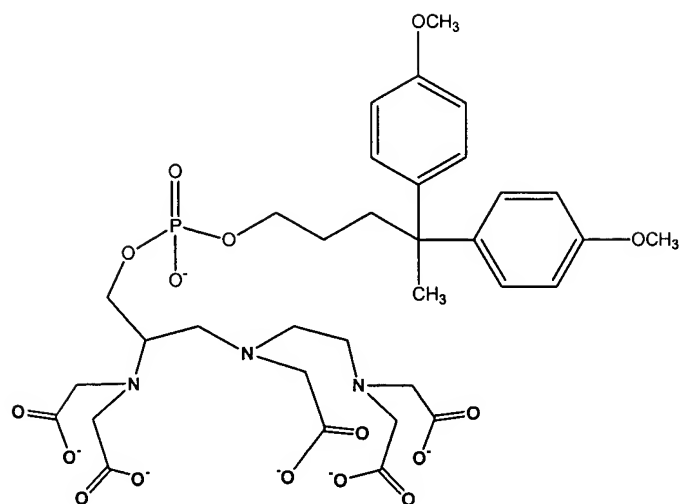

111. (previously presented) A chelating ligand having the structure:

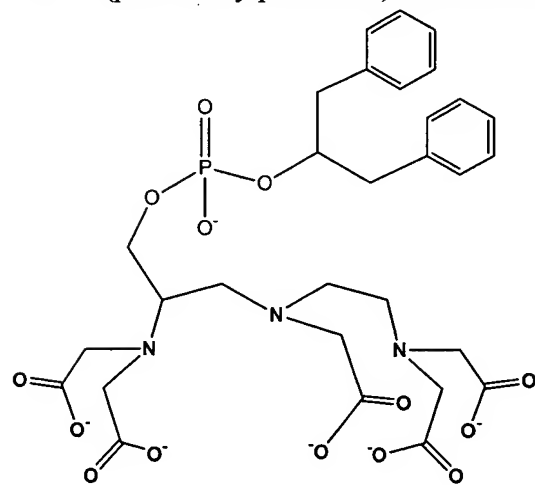

112. (previously presented) A chelating ligand having the structure:

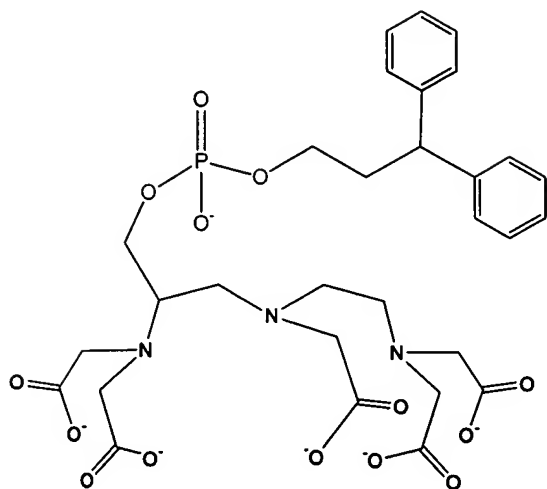

113. (previously presented) A chelating ligand having the structure:

114. (previously presented) A chelating ligand having the structure:

115. (previously presented) A chelating ligand having the structure:

116. (previously presented) A pharmaceutically acceptable salt of a chelating ligand according to any of claims 108-115.

117. (currently amended) The pharmaceutically acceptable salt of claim ~~112~~116, wherein the salt is selected from the group consisting of calcium, sodium, N-methyl-glucamine, and mixtures thereof.
